All Recap Test Answers

This answer book is for Teachers and Parents only.

Each Recap Test aims to gauge how much of any single topic has been understood by the student. They can be used once or more, and a flexible time allowance of 10, 15 or 20 minutes is recommended.

Our tests are brief but challenging, making use of the various question formats typical of SATs and entrance exams.

Answers require more than a multiple choice guess, so students are required to write, draw or select answers accordingly. This can be done on-paper or on-screen.
